NEW FOREST 1900
ELECTRIC FIRE

The New Forest electric fire takes flame technology to the next level. The LED flame visuals are almost unbelievable in the deep real fires colours and spread throughout the wide fire utilising every angle. The signature logs are crafted from high quality materials that perfectly form together and capture every detail you would expect to see in a log found whilst walking in the New Forest.

OUR 3 STEP PROCESS TO YOUR PERFECT FIRE

1. ENQUIRE

As the manufacturer, we can help and support you with your project. Make an enquiry and one of our sales experts will contact you and provide the information you need.

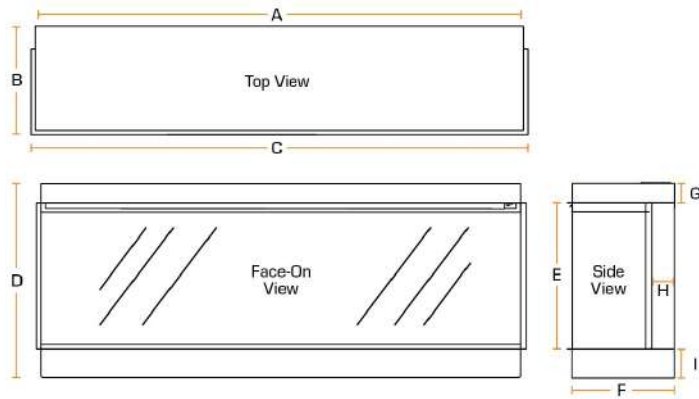

2. AUTHORISED DEALER

Our experts will then liaise with your local authorised dealer for you to see the fires on display and arrange a consultation to discuss the best suited product.

3. THAT'S A WRAP

Once your perfect British Fire product is chosen you can then arrange for an installation or just simply purchase the product from your local dealer.

PRODUCT DIMENSIONS

A	1900mm
B	311mm
C	1925mm
D	565mm
E	424mm
F	300mm
G	55.5mm
H	67mm
I	83.5mm

INSTALLATION TO SUIT YOU

3-Sided Installation

Keeping both the left hand and right hand sides open for an ultimate viewing feature. On our example we have shown the fire with a raised hearth slate topped C section to compliment the fire.

Front Facing

The fire is fully recessed within the chimney breast. Both sides are fully enclosed using the supplied blanking plates to view a clear head on view of the fire.

Corner Option

Keeping either the left or right side of the fire open whilst enclosing the opposite side with the supplied blanking plate. Utilising one side of the fire as a key feature gives a unique style to the installation.

FUEL BED OPTIONS

Forest View

The Signature logs are inspired by the rural New Forest in Hampshire, England. They sit comfortably on an underlay of wood chippings and husk which delivers a real earthy feel.

Slate View

Using only the Signature logs, diamond light crystals and slate supplied allows more light from fuel bed to show through. Ultimately, this setup brings more light to the situation.

Deluxe Real Logs

The signature logs that are crafted from the rural New Forest in Hampshire sit comfortably on an underlay of wood chippings and husk which delivers a real earthy feel.

Diamond Light

A dynamic way to show how light can enhance the visual aspect of a flame effect. This is something magical. The fuel bed colour changes takes you through a journey of tranquility.

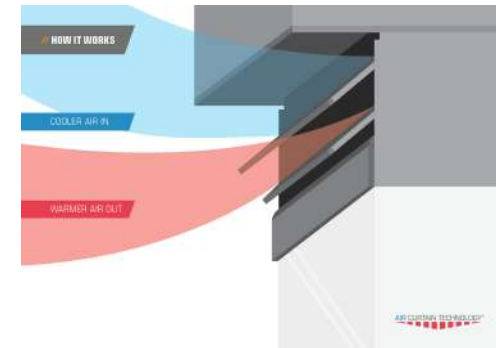

AIR CURTAIN TECHNOLOGY

The fan draws cool air from the room in and down the sides of the fireplace.

Distributes heat back into the room through the unique heater outlets.

Designed and engineered to distribute heat effectively throughout a space.

PRODUCT FEATURES

Air Curtain Technology®

The patented engineering design not only commands performance but is designed to distribute heat effectively throughout a space.

Remote Control

Every New Forest electric fireplace is equipped with a remote control that bridges the connection between you and your ideal ambiance.

Installation Versatility

Installation options include 3-sided, corner or flush designs that provide full design flexibility no matter what kind of space.

Lighting Effects

Cycle through three fire bed colors that each provide a unique style or use the cycle setting to flow through all available options.

Flame Control

Choose from the four settings to adjust the brightness of the flame to suit your mood or adjust the height of the flame.

Thermostatic Heating

Choose a temperature between 17° and 27°C and the fire will do the work to heat the room up effectively.
